

PROFILE SUMMARY

Dedicated and passionate communications specialist with a background in Maritime & Aviation. Enthusiastic about technology, with a history of hands-on experience in various IT-related activities. As a Networking IT hobbyist I have recently refurbished an old laptop and turned it into a Ubuntu LTS server, with a Raspberry Pi acting as a WoL device I am able to remotely access the server anywhere in the world. I have also recently created a Winforms GUI Application to streamline the process.

WORK EXPERIENCE

Winter Wonderland & Taste of London | IMG Events

Nov. 2023 – Jun. 2024

Bar Staff

Hyde Park, London

- My responsibilities included creating a cozy & welcoming atmosphere for all guests of Winter Wonderland.
- Tip-top customer service, team collaboration, cash handling & inventory management.

Scholars Lounge

Jan. 2023 – Sept. 2023

Bartender & Waiter

Rome, Italy

- Working in a second language in Rome's busiest Irish Bar required a high level of attention to detail, precision and concentration within a fast-paced environment. A great way of picking up and practising spoken Italian.

Royal Navy

Jun. 2020 – Jan. 2022

Aircraft Controller

RNAS Yeovilton, UK

- My role was to coordinate communication between several departments to insure the best use and overall safety of helicopters and other air assets under our control. This position required a high level of responsibility and precision as the orders communicated can directly affect national security and the safety of aircrew. This 2-year period has allowed me to greatly expand:
 - My **organisational skills**: need for coordination and multi-level planning whilst under mounting pressure
 - My **communication skills**: both written and oral, writing and delivery of official briefs which would inform all aircrew, senior HoDs & the Captain of the intended serial & safety measures.
 - My **management skills**: advising other departments as an Aircraft/Safety SME, delegation of certain tasks to junior ranks

EDUCATION
